

VARUN M BHARADWAJ

Software Engineer | Product Engineer | Full Stack

Bengaluru, India | +91 9481730374 | ymbvarun@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer (MCA, CGPA 8.62) who designs, codes, tests and ships full-stack web, mobile and self-service kiosk applications in **JavaScript/TypeScript, React, React Native, Node.js and PostgreSQL**. Currently a Product Engineer owning point-of-sale and kiosk features **end to end**, from touch-optimised ordering UX to a centralised menu management system synced across terminals. Previously **debugged live production issues** on an enterprise payroll platform using SQL, PL/SQL and log tracing. Strong fundamentals in **data structures, algorithms, OOP, DBMS and computer networks**; builds with **secure coding practices** and works well with product, QA and backend teams in Agile cycles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, PL/SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Linux

Backend: Node.js, Express.js, RESTful API design, JWT authentication, Redis rate limiting, relational data modelling

Frontend & Mobile: React.js, React Native, Expo, HTML5, CSS3, Tailwind CSS, Shadcn UI, responsive & touch UI

Databases: PostgreSQL (Supabase, Neon), Oracle SQL, MongoDB, Redis, Appwrite

DevOps & Practices: Git, GitHub, GitHub Actions (CI/CD), Docker, Vercel, AWS (basics), Agile/Scrum, SDLC

AI & APIs: OpenAI API, OpenRouter API, Vapi AI, Streamlit, LangChain (learning)

WORK EXPERIENCE

ARCKS Technosoft Pvt. Ltd. | *Product Engineer*

Aug 2026 – Present

- Built **self-service kiosk software** for in-store ordering with a touch-optimised interface covering item browsing, cart management, order review and checkout.
- Engineered a **centralised menu management system** letting operators create, categorise, price and publish items from one admin dashboard, keeping availability and pricing in sync across all kiosk terminals.
- Owned features **end to end across frontend and backend**, contributing to QA cycles, defect resolution and technical documentation ahead of production deployment.
- Developed and shipped the company website with responsive, component-driven layouts that render consistently across desktop and mobile.

Epic Minds | *L1 Support Specialist, HRMS 2.0 (Enterprise Payroll Platform)*

Oct 2025 – Aug 2026

- Debugged and resolved production issues with a **95% ticket resolution rate** by analyzing system behavior, writing **SQL and PL/SQL** queries against Oracle payroll databases and tracing application logs.
- Performed **root-cause analysis** on recurring payroll defects (salary generation errors, deduction mismatches) and documented findings the backend team used to ship fixes.
- Traced records across payroll tables with PL/SQL to verify calculation outputs and correct inconsistent entries without escalation; kept structured incident logs that sped up diagnosis of repeat issues.

PROJECTS

ResumeForge | AI Resume Analyzer & ATS Optimizer | [Live](#) | *React, Express, PostgreSQL, OpenAI*

- Built a full-stack platform that compares uploaded resumes against job descriptions to surface skill gaps and missing keywords, with real-time feedback in a React UI.
- Designed **RESTful APIs** in Express.js with PostgreSQL and **JWT-protected routes**; integrated the OpenAI API for ATS suggestions and personalized interview questions.

Wallet Tracker | Cross-Platform Finance App (iOS & Android) | *React Native, Express, Neon PostgreSQL, Redis*

- Built a mobile finance tracker with **Clerk authentication** (email verification, 6-digit code login) and backend APIs protected by **Redis-based rate limiting**.

Habit Tracker | Cross-Platform Mobile App | *React Native, Expo, Appwrite*

- Developed a habit app with streak calculation, push notifications, real-time sync and reusable animated UI components for progress visualization.

Mental Health Support Chatbot | *Python, Streamlit, OpenRouter API*

- Built a privacy-focused conversational chatbot with session tracking for multi-turn context and responses tailored to stress and anxiety concerns.

EDUCATION

Master of Computer Applications (MCA) | JSS Academy of Technical Education | CGPA 8.62

2022 – 2024

Bachelor of Computer Applications (BCA) | KLE Society's Degree College | CGPA 8.29

2019 – 2022
